

MORI / REAR TYPE-C + POWER SWITCH / P4

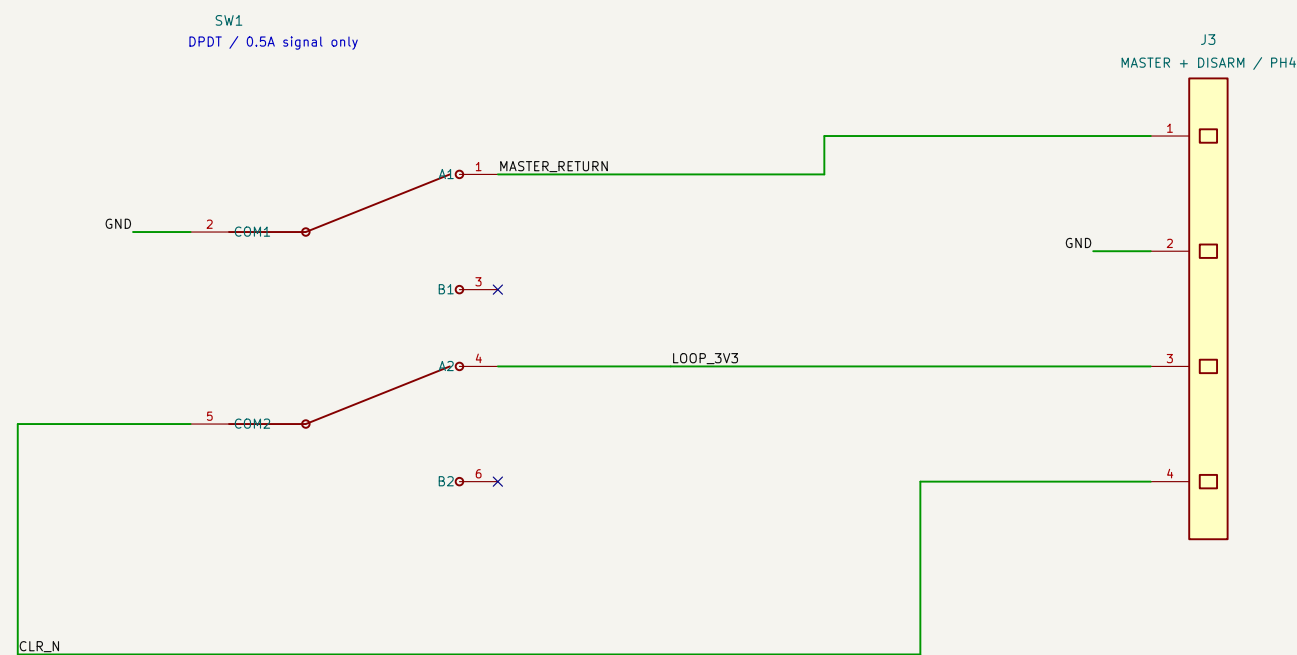

PROTOTYPE / NOT_TESTED. No PD negotiation or battery CC/CV charging on this interface board.

01 USB-C charge inlet / fuse / CC pass-through

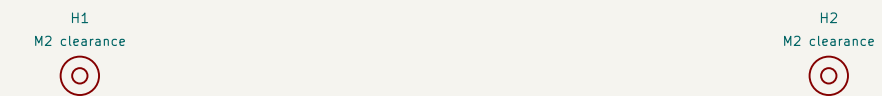

5-20V only after external sink negotiation. 1A continuous target; current limit and 3S charger remain external.

02 Physical master switch + latch-clear loop

ON closes both poles. OFF / broken harness opens both. A fresh local ARM is required after switch-on.

03 Mechanical and test interfaces

H1=(3,11), H2=(21,11); NPTH 2.2mm

24 x 25 x 1.6mm; no exposed top metal on side seats.

PCB grows 11mm inward. Actual USB/switch opening positions require mechanical update.

PROTOTYPE / NOT_TESTED – circuit and pin assignments retained
